
SIZE CHART

STEP 1 Length measurement

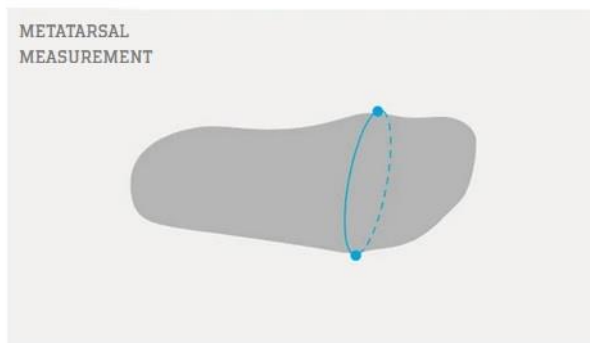

- Place a piece of paper on the floor.
- Wear the socks you use for riding.
- Step on the paper with your heel touching the wall behind.
- Mark the longest toe on the paper so measure from the wall to the marking (do it for both feet)

STEP 2 Metatarsal measurement

Now measure the metatarsal/width circumference of your feet - see pictures as example.

STEP 3 Size chart

Look at the size chart to get the right size.

IMPORTANT for COMFORT

If your metatarsal/width measure is over the measure you find in the chart, pick HALF SIZE MORE than the suggested

In order to check if the model has a Pro, Regular or Wide Fit: see the product features.

**SHOES SIZE
CHART**

IMPORTANT:

- ▲ If your metatarsal or width measure exceed the values choose half size more

UNITS: centimetres
